# BEING A DISCIPLE PREPARATION

LIVING your call

## The basics

Imagine you've been asked to write a "job description" for being a Christian disciple – what might you write?

How does this idea of being a disciple affect your daily life?

## Going deeper

Think about your life up to this point.

How might your past experiences, both good and bad, have shaped you into the person you are today?

How might these experiences influence the direction of your present or future ministry?
