The Project

The project is an opportunity for you to do something with what you have learned and discovered in each module. It will not be formally assessed, but please send us a copy of whatever you do, a link to it, or a brief summary so we know you have done something. It could be:

- A short video on your church's website or social media
- A display
- A new spiritual practice
- A written, artistic, or photographic reflection
- Trying something new
- An event
- A newsletter article
- Anything else you can think of – talk with me if you aren't sure if it's appropriate!
